DAKOTA

POLYPROPYLENE
The Dakota molded chair offers durability and versatility at an affordable price. It works in training rooms, lounges, cafeterias, auditoriums or in any application where flexibility and resistance to wear is required of a high-density stack chair.

The polypropylene shell cleans easily, making the Dakota particularly appropriate for the healthcare environment. Molded chairs stack 45 high and are available in a variety of colors.

The chair frame is sturdily constructed of a 7/16" solid steel rod that can be finished in bright duplex nickel chrome plating or electrostatically applied epoxy.
